Sales/Marketing Strategy

1. Presentations will be sent via e-mail to hospitals and medical centers in Turkey. 2. Private hospitals in Turkey will be visited to hold presentations. 3. Workshops will be conducted with the support of the university and the Ministry of Health.

Competitors

We do not have any competitors in Turkey but there are companies that can possibly make similar products to Robot Nurse after its release. There are no similar products abroad yet, it has been concluded that there are not any robots that have the same or similar functions. But a lot of countries, especially the US have the technology to produce similar products.

Competitive Advantage

It is the only Robot Nurse produced by Turkey. There are no other activities in Turkey regarding this matter. The only producer is our company.
